## The AllStates Story

For nearly 70 years, AllStates has provided specialized staffing services to some of the top Energy and Chemical companies in the U.S. Our long term approach to building relationships has created partnerships with clients and field employees lasting decades.

In our first 50 years we were the internal staffing firm for the multi billion dollar company **BE&K**. Over the next 8+ years we did the same with **KBR** (Kellogg Brown and Root).

Two years ago we went out on our own and now have over **1400** contractors in the field. We place over 50 new direct hires per month as well.

If you are looking to meet a project goal by partnering with a proven leader, let's have a conversation.

1400+ Contractors nationwide

AllStates Locations (Atlanta, Houston, Dallas, Nashville)
